EVENTS

EVENTS

The diagram is a spacetime grid. It features a series of horizontal lines and a series of vertical lines, forming a rectangular grid. Additionally, there are diagonal lines running from the bottom-left to the top-right, representing the path of light. The vertical axis is labeled 'EVENTS' at the top. The horizontal axis represents time. The grid is composed of 10 horizontal lines and 10 vertical lines, creating a 9x9 grid of squares. The diagonal lines are drawn at a 45-degree angle, intersecting the horizontal and vertical lines at the grid intersections.
